

Automated Transaction Delivery

A New Evolution in Automated Banking™

Transaction Delivery Solutions

ATM Worldwide provides the latest in ATM transaction delivery technology without the headache, challenges and cost of traditional ATM ownership. Our Managed Services solutions include all of the technology to deliver the transactions that today's consumers want. We combine all of the required products and services into one "easy to implement" solution making transaction delivery simple.

Simple Solution

Our Managed Services Solution eliminates the challenges of traditional ATM ownership by providing a full "Turn-Key" ATM Managed Services Solution. We differentiate ourselves from our competitors because they either only sell ATM "boxes", provide outsourcing for cash-dispense only ATM's, or only provide part of what is required to effectively run and manage a Financial Institution ATM program. We designed and developed our solution to include the hardware, the software, the maintenance (hardware and software), secure wireless connectivity, cash delivery and the back office functionality for a true "Turn-Key" ATM Managed Services Solution.

Reduced Cost

Cost savings to our Credit Union Partners was a primary driver in developing our ATM Managed Services Platform, whether it is the direct cost of expensive equipment, maintenance, implementation contracts or indirect costs associated with ATM ownership. These indirect or hidden costs are difficult to understand. Indirect costs of ATM Ownership include the opportunity cost of spending capital on equipment rather than lending it out to members, the time consuming task of vendor management, expensive and complex internal back office systems required to make ATM's functional, and the constant costs of continual hardware/software upgrades or government mandates. Our Turn-Key ATM Managed Solutions Platform is simple, easy and budget friendly.

Flexible Options

Automated Transaction Delivery offers a flexible range of options to meet the requirements of any Credit Union. Our solution eliminates all of the headaches of traditional ATM ownership and delivers what matters most – efficient and effective transaction delivery to your Members. Our proprietary technology platform gives Credit Unions the flexibility to decide whether they want to upgrade an ATM Terminal with new equipment or keep their existing NCR or Diebold ATM by migrating existing equipment to the ATM Worldwide Managed Services Platform.

Automated Transaction Delivery

A New Evolution in Automated Banking TM

Branch/Retail Cash Delivery

Our retail cash delivery solutions offer a wide range of options to our Credit Union Partners. We offer simple cash-dispense ATM's for Branch locations, off-premise ATM's for market expansion, as well as Branded ATM Mobile Events to support local communities and Brand Awareness. Our ATMs are delivered with custom marketing wraps, welcome and marketing screens. We offer options that include placements, co-Branding and offsite events of all sizes.

Financial Solutions

Our financial solutions include high volume Cash Dispense ATM's, Envelope Deposit ATM's, Deposit Automation ATM's and Teller Cash Recyclers. Our Turn-Key solution includes ATM setup, training, delivery and installation. We also provide custom ATM surrounds, panels, kiosks and custom marketing screens to deliver your message and reinforce branding to your Members. Our Turn-Key solution requires no upfront investment, includes the cost of any upgrades and/or government compliance requirements and reimburses 100% of the ATM revenue back to the Credit Union to reduce or eliminate the cost of the program.

Advanced Solutions

Our ATD8800 and ATD7800i provide all of the advanced functionality smart ATM's, with the added benefit of Remote Video Teller and the ability to override traditional ATM transactions remotely. The ATM hardware combined with ATM Worldwide's proprietary technology platform deliver a Branch in a Box without all of the implementation costs and time required with a traditional core integration. Our advanced solution ATM's work Day 1, guaranteed.
